

Potential Bio 3 Add Slip

Semester: FJ018 Instructor Signature: RAWen Permission # _____

Student name: _____ wait list officially added

Enter your Permission # on the Student Portal ASAP. If you do not process this number by the *next class meeting*, another student will be given your spot.

Show this slip to the Lab Instructor on duty in order to complete Orientation. There may be a delay while your information is entered onto the Bio 3 log in computer, so the instructor will give you a "Manual Log In" form so that your time in the lab will be recorded.

If you are still on stand-by, you may only do Orientation during the first week of the semester. *You may NOT begin Lab 1 until you have been issued a Permission number.*
