

Sample Essays

The review published on the website for each examination will include 4 essay topics. These are the areas that the short-essay questions on the exam will cover.

You are to write a “**sample essay**”, that is an essay that brings all the information you have in your notes together on the subject. This is a necessary step in studying for the examination and also will earn you extra points toward your grade. This way when you are asked to write a short-essay, you will already be knowledgeable about it and be ready to answer the question. **I also suggest that you complete the sample essays a week in advance – if you do I am happy to look them over for you to make sure the information is complete and correct.**

Additionally you will receive 5 points per exam for submitting all four sample essays the day of the exam. **They must be stapled and placed on the lecture podium prior to the exam.**

It is very important to complete the “sample essays” – this will help you in how you perform on the exam, earn you extra points and also help you with information that will be included in the multiple choice section of the examination.
